

5hp Oil Free Reciprocating

Simplex 17CFM @ 150 PSI

Duplex 34 CFM @ 150 PSI

Triplex 51 CFM @ 150 PSI

Quadplex 68CFM @ 150 PSI

Basic Compressor

Features

- Swedish steel reed valves
- Heavy duty cast iron pump
- Oil Free operation
- Industrial grade electric motor
- ASME tested & painted tank
- Large fan style pump flywheel
- All UL electric controls
- Auto start/stop
- Fully enclosed belt guard
- Heavy duty air filter
- Large inner cooler

Elite Compressor

Features

- Belt guard after cooler
- Automatic tank drain
- Magnetic starter mounted and wired
- Vibration isolation pads
- Freight pre-paid in 48 states and southern Canada

On Duplex, Triplex, and Quadplex units all unit modules are easily removed individually to be serviced or repaired without having to take the whole unit apart

Duplex units start with D, Triplex units start with T, Quadplex units start with Q

Model	Phase	Voltage	Tank	Elite/Basic	Length	Width	Height
